pro-life letter campaign

3 million letters annually to end abortion

Will you take just 5 minutes to do your part?

A small team from Chattanooga has started an ambitious pro-life initiative that EVERYONE can participate in. It will take you about 5 minutes and TOGETHER we can make a real IMPACT FOR LIFE in Washington DC!

Will you do your part to help save innocent babies from the horror of abortion?

All it takes is 5 minutes, an envelope and a stamp!

1. Visit july2life.com
2. Click [Prepare your letter now!](#)
3. Enter your zip code
4. Print or handwrite your letter
5. Mail your letter July 2nd
6. Pat yourself on the back - you have put your belief into action!
7. Share with your family, friends, neighbors and church!

This is the first year, but the project will continue year after year until the [Life at Conception Act](#) is passed!

God bless you for taking just 5 minutes to get DC's attention on the personhood of pre-born human beings!

News: First appearance on national radio announcing July 2 Life. Visit vcyamerica.org/crosstalk for MP3 audio of the interview.

Statement of the Noble Goal:

To end abortion by Congress simply declaring that life begins at conception. There is already a bill in Congress to do this.

What is needed?

We need 3 million people to write to their United States Representative asking them to vote for the bill.

When does it need to be completed?

All the letters need to be mailed on July 2, 2019.

3 million letters is...

✓ 3 times the world record

The world record for a letter writing campaign is 900,000 letters for Amnesty International. The pro-life community can triple the world record on an annual basis.

✓ 3 times the number of annual abortions

Imagine a world where it takes three 911 calls before the police would be dispatched to a crime scene. This is the world we live in for the unborn. With approximately 1 million abortions every year, the least we can do is send three letters for every one of these children.

"One fourth of my generation is missing because of abortion."

✓ Historically effective

The most recent Constitutional Amendment passed with a letter-writing campaign in 1992. This requires $\frac{2}{3}$ of Congress and $\frac{3}{4}$ of all states to be agreement on the Amendment. Suffice it to say, it is difficult to pass an Amendment. But it was passed with a letter-writing campaign!

So let's pass H.R. 616 Life At Conception Act the same way!

3 million letters every year

Currently, we have around 300,000 people visiting Washington D.C. every January for the March For Life. This is the largest pro-life demonstration in the world.

For everyone traveling to the March For Life, there must be ten times as many pro-life people who would be able to send a letter from the comfort of their own home.

Once this (very reasonable) 1 in 10 ratio is reached, that equals 3 million people sending a pro-life letter every year. That is 1% of the population unified with the same message
- pass H.R. 616 Life at Conception Act!

How can you help guarantee success?

Most importantly, you should personally set the example, and send your own pro-life letter. Mark your calendar for July 2nd. All it takes is **one stamp** and **five minutes**.

"Every pro-life American should do this as part of their civic duty."

Prepare your letter now!
Mail it July 2nd!

Get email reminders!
let us know you're on board

- ☐ Follow us on **Social Media** (links below)
- ☐ Contact us for information on the **Promoter's Program** (email below)
- ☐ Print **letters for your family**
- ☐ Send pro-life letters **from your church**
- ☐ Go through each of your **phone contacts and Facebook friends** one at a time and get them involved!

*"We will achieve 3 million letters annually.
The only question is how long until we do."*

For every one who dies from gun violence, **more than 63 die from abortion**. Life begins at conception. Never at birth.
